Price rise notification

Dear Valued Customer,

We would like to inform you that due to the number of price rises enforced on N.A.W Controls by many of our Suppliers we will also have to pass on a small price rise to you.

We have had price rises from all corners of the world and from our local Suppliers ranging from 5% to 15%. The raw materials market around the world is experiencing a significant rise in costs and the added impact of freight is also impacting the price of goods we source.

N.A.W Controls has continued to absorb many prices to assist our customers but we now find ourselves in a position where a small increase is inevitable.

Effective from **April 1st, 2024** all pricing will increase by 7%.
Any valid Quotations will be honoured within our terms and conditions.

N.A.W Controls would like to thank all our Customers and acknowledge the support we have received over the years. We wish you all well and look forward to supporting you in the future.

Best Regards,

N.A.W Controls Pty Ltd.
